A Division of Eye Centers of America

What is a refraction?

The refraction is an important part of your eye exam. It is a test that determines whether you can be helped in any way by a new prescription for glasses and/or contact lenses. It is a standard part of a comprehensive eye exam. **It is REQUIRED**

to receive a new prescription for glasses and/or contact lenses. A refraction must be done annually to order contact lenses.

The refraction is NOT a covered service by Medicare and many other insurance plans. These plans consider the refraction a “vision” service, not a medical service.

Our office fee for the refraction is **\$67.00**, and this fee is collected at the time of service.

I **DO NOT HAVE VISION COVERAGE** and still would like the refraction done today, please **INITIAL** below:

_____ I have read the above information and understand that the refraction is a non-covered service. I accept full financial responsibility for the cost of this service and understand that any co-payment, coinsurance, or deductible are separate from, and not included in the refraction fee.

INITIAL the line below to which your **VISION COVERAGE APPLIES**:

_____ I have vision coverage through **VSP (Vision Service Plan)**

_____ I have vision coverage through **VSP (Vision Service Plan)** and I am aware that because I chose to see an MD today, **my medical insurance will be billed as the primary insurance and VSP will be billed as secondary.**

_____ I have vision coverage through **IBEW Local Union 164**

_____ I have vision coverage through **Horizon Direct with NJX prefix**

_____ I have vision coverage through **Aetna Medicare, Braven Health, or UHC Medicare ADV**

I would like to **DECLINE** the refraction service for today, or would like to **DEFER** the service until your next visit. **INITIAL** below:

_____ I will decline or defer the refraction service today. I understand that without the refraction, the physicians may not be able to fully assess the health and function of my eyes. I understand by declining the refraction, **my doctor CANNOT prescribe new eyeglasses or contact lens prescriptions at this time. I am also aware that my contact lens prescription expires one year from the date of my last refraction, and if expired I cannot order contact lenses until I have an exam with a refraction.**
